

PROGRAM

1. "IoT.... and Information Security Challenges" (9.00-9.30 am) Prof. Dr. Sattar B. Sadkhan./Babylon University/IT College.
2. "Internet of things applications and challenges" (9:30-10.00 am) Dr.Ali Hussein Hamad/University of Baghdad/Alkharizmi college of engineering/Information and communication department
3. Tea break (10.00-10.30 am).
4. "Programming of IOT" (10.30 -11.00 am) Engineer Mohammed Essa.
5. "Cybersecurity" (11:00am-11:30 am) Heba M. Fadhil / University of Baghdad/Alkharizmi college of engineering/Information and communication department.

INFORMATION AND COMMUNICATION DEPARTMENT

The department was established at the academic year 1997-1998 and was attached to al Khwarizmi College of Engineering at the academic year 2003-2002. The duration of the study in the department is four years, during which the student will study various topics related to the specialization of information and communication engineering, and then grant a bachelor's degree in information and communications engineering. The specialization of the department is related to the information technology infrastructure, namely the physical and software entity, networks, and the various communication systems that connect them, as well as the analysis and design of the various information systems that use this infrastructure, such as e-commerce; e-learning, e-government and others.
